Blending award winning design and new technology, the Eclipse Touch delivers another 'world first' with the integration of touch screen to its compact desktop range. This unique product is intuitive and simple to use. The crisp image quality and its high reading speed technology is achieved with Ash's unique blend of premium electronics, optics and patented product design. Personal preferences can be simply chosen to suit your specific needs through the new touch screen controls. Move the unit around with unrivalled ease with its compact folding and lightweight design. The Eclipse Touch can also support an optional distance camera and optional hard travel case for demanding educational and workplace environments.
