

OPTi Verso 2 will assist if you suffer from:

- Macular Degeneration
- Glaucoma
- Cataracts
- Retinitis Pigmentosa
- Diabetic Retinopathy

OPTi Verso 2 will assist with:

- Working with screen magnification
- Distance viewing
- Looking at a whiteboard
- Capturing images
- Reviewing drawings/plans/wall charts
- Interaction in the classroom

The OPTi Verso 2 is the ultimate portable magnification aid with distance viewing capability. Its ergonomic design makes it compact and portable for everyday use. It is specifically designed for Laptop/PC use only.

The flexible camera flips up to look at far distance objects such as a whiteboard and flips back again for close up reading & writing. The OPTi Verso 2 is the perfect solution for any professional or student who requires both distance & close-up viewing on the go.
