

CORONAVIRUS

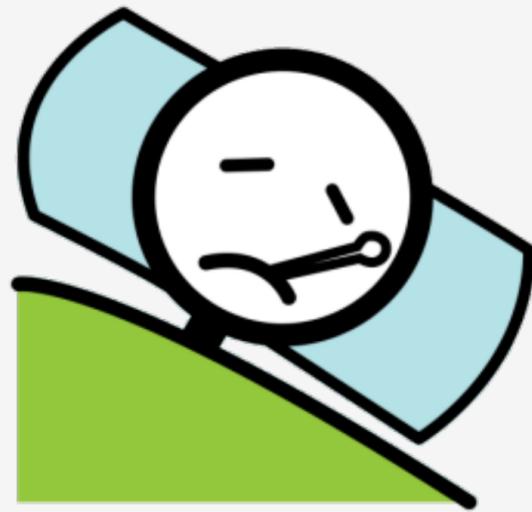

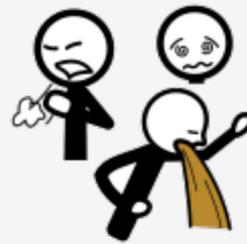

¿Qué es?

Es un virus muy contagioso

El virus provoca una enfermedad

Los síntomas más importantes son:

Fiebre

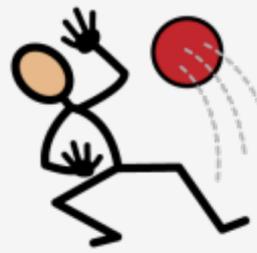

Tos

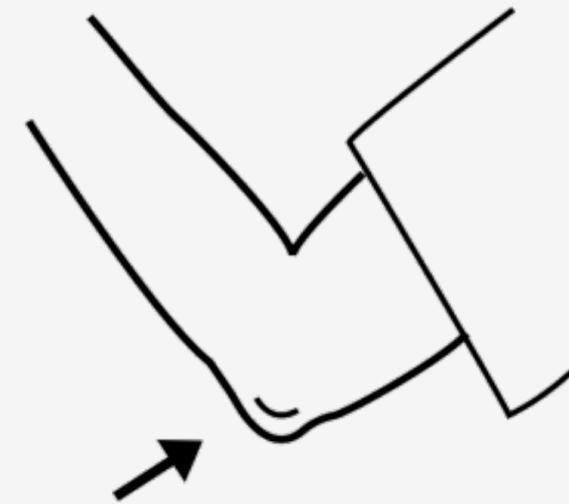

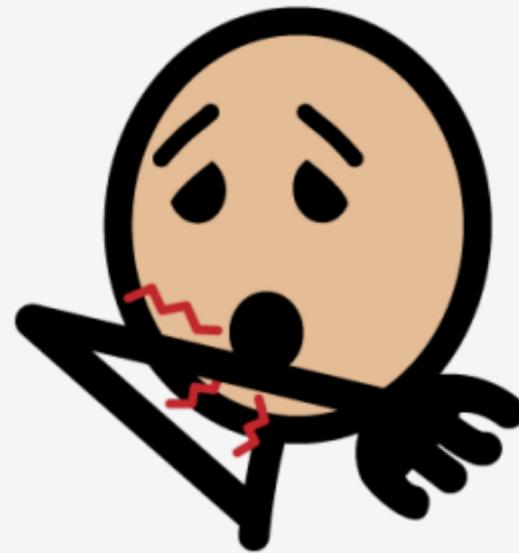

Cansancio

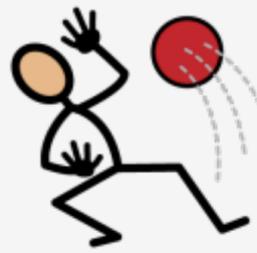

Para no contagiarnos debemos:

estornudar y toser sobre el codo

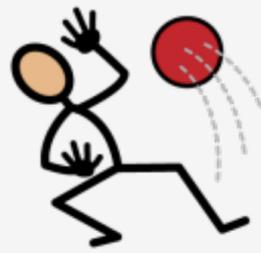

Para no contagiarnos debemos:

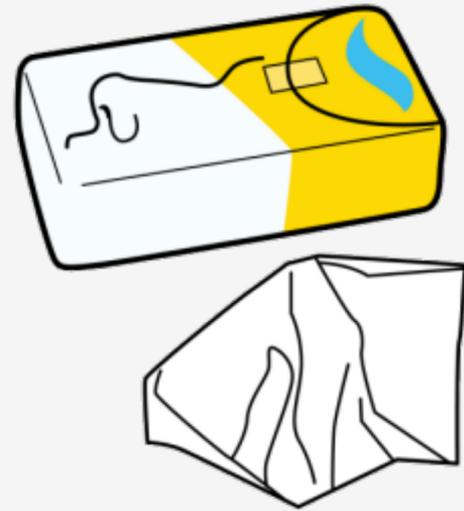

lavarnos mucho las manos

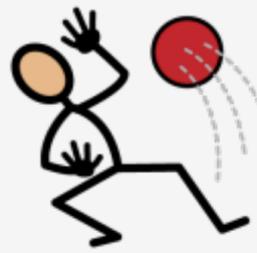

Para no contagiarnos debemos:

utilizar pañuelos desechables

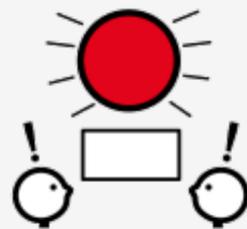

Para no contagiarnos debemos:

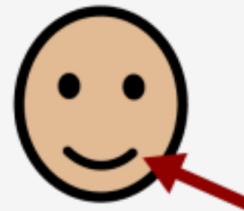

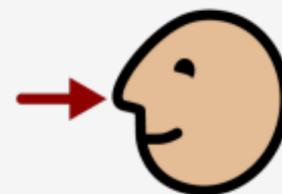

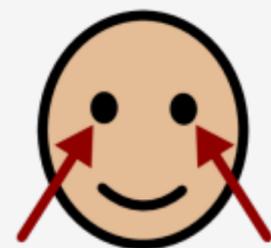

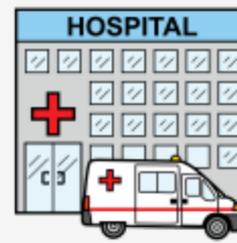

desinfectarnos las manos

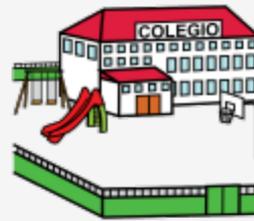

Es importante que no nos toquemos la cara

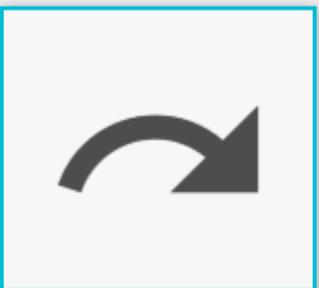

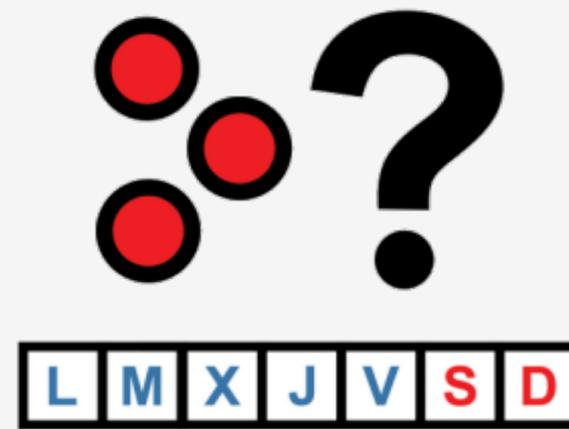

El personal sanitario está trabajando mucho para protegernos del virus

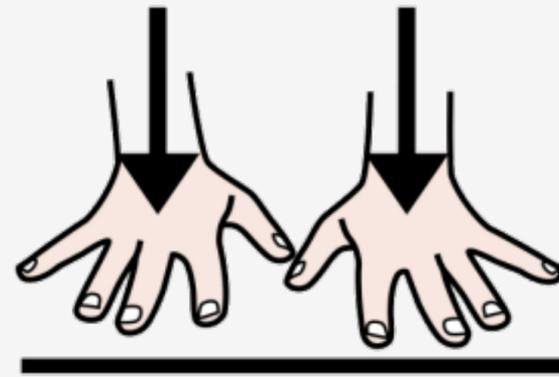

El colegio va a estar cerrado varios días

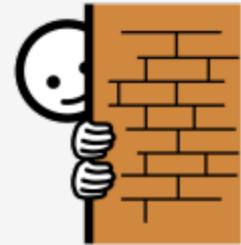

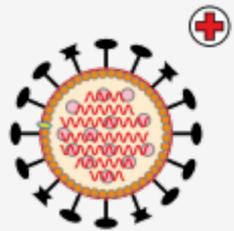

La norma más importante es
quedarse en casa

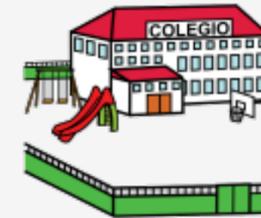

Cuando nos avisen de que el virus
ha desaparecido
podremos volver al colegio
